Denver
COLORADO Feb. 20, 1932

Following is a list of extra fine quality Colorado grown ornamental nursery stock, power dug, carefully graded and well matured. Practically all of the items listed have been grown on a light loam, producing plenty of fibrous roots.

We specialize in the hardy Northern strain of Chinese Elm, *Ulmus pumila*. We especially wish to call attention to our offering of two year seedlings, listed on the last page, and the trees listed on this page up to 2 to 2½ inch caliper, which we will quote special prices on in large quantities and car-load lots.

Trees and shrubs are tied in bundles of ten - additional charge will be made for less quantities. Boxing or baling additional, at actual cost.

SHADE AND ORNAMENTAL TREES

Suitable for the best retail trade. Straight and well branched specimens
